Attached are the revisions recommended after review of the draft Special Exception Conditions by Marilee Seigfried, Diane Ferrell and me. Also, please see the following comments:

- The legal advertisement for the Board public hearing should be corrected to remove the Rt.28 Tax District since this site is not located within that taxing district.
- Ensure that the property taxes due are paid prior to Board action since they are identified as unpaid to date.
- As a reminder, Section 6-601(A)(1)(b) requires notification to adjoining counties (Fairfax County) if the subject property is located within ½ mile of the subject property.

Is it the intention of the applicant to provide a type 2 buffer/screen in addition to the evergreen trees? Please note that the type 2 buffer is not required. If it is the applicants intention to provide the type 2 buffer also, Condition 8 should be revised to include it.
